PREVIOUS PROFESSIONAL HISTORY

STANLEY BLACK & DECKER, East Greenwich, RI **1996 – 2011**

Band Line Operator

Service to the company in multiple roles of increasing responsibility. Earned 3 promotions based upon dedication.

- ***Major accomplishment in this role:*** After working a short time as a band line operator, made a suggestion to management that the company switch from metal and wood spools to all metal spool that would not snag with a tapered core so the wire would not fall. This saved the company money, the machine ran longer with less downtime and there was also a lot less scrap.
